

Professional Practice Exhibition Guidelines

Edition 2021

Each student will design a personal website in which creative elements can be embedded (video, photo album, game, etc). Aim of this exhibition is that the student shows the experiences gained during the practice. Creative ideas are welcome and are encouraged.

Designing the website can be done making use of the Google Sites functionality every student has in his/her personal IMBRSea account.

The online exhibition will be open during the several dedicated sessions during the symposium. The public will be able to access the collection of websites. These websites should be visually attractive, engaging, showing content, and at the same time reflect on the actual experience.

Presentation

During the two weeks before the annual symposium every student will be interviewed about the professional practice experience. Via a set of questions and follow-up questions you will be able to explain what you learned and experienced. A recording of this interview will be made available to the exhibition evaluators and the peers. Through these interviews we are able to evaluate the presentation skills of every student in a fair and equal way. An interview will at maximum take 10 minutes. Guidelines about the interview will be circulated in advance.

Note that during the symposium evaluators may also contact you personally to ask for a chat via an online chat room or google meet.

Voting

During the exhibition moments, a public voting system will be installed to vote for the best exhibition materials. The public can vote for the best exhibition via an online form.

Timeline

- **Weeks 21 & 28 June** : recording of structured interviews by Julia Jung. Reservation of time slot through Matix from **14 June** onwards.
- **July 2nd** : deadline for submitting (1) the URL to your exhibition website and (2) one attractive picture showing the website and (3) one profile picture of yourself
- **July 2nd** : The final report should be submitted to the IMBRSea coordination office by 16:00 CET (see also the professional practice guidelines).

Evaluation

Professional Practice presentations account for 25% of the final grade. They are evaluated on the following aspects: Visual, Content, Speaker's capacity and Creativity.
